# TOP PRIZE \$100,000!

Gently scratch the cards and suit symbols to find the 5 dealer's cards, your 25 cards and prize amounts. To win a prize, you must match any of your cards to the dealer's cards; cards match if they have the same suit and rank. If you find a "5", you win and get to multiply that prize by 5; if you find an "A", you win and get to multiply that prize by 10, no matching needed.
